# Advertiser Sign Up Sheet

We will be publishing several community guides highlighting local venues of interest to people living in Pittsburgh, and visiting our city, from shopping and dining to night life and attractions.

In addition, we will be publishing a magazine AND a guide for the US Open, happening this June at Oakmont Country club which will be distributed at the Open and to hotels and venues around Pittsburgh.

We will be distributing these items at many of the hotels around the area, concentrating in the area for your best demographic, but you will be "exposed" over the greater Pittsburgh area.

Please pick the items you are interested in.

US Open Magazine "All Eyes on Oakmont"       "Only In Oakmont" tri-fold flier.

Room Books: We often have opportunities to put and maintain advertising in guest rooms at various hotels

Hotels you'd be interested in: \_\_\_\_\_

Postcards: We have postcard sized or plastic card sized discount offers distributed at various events

Lobby Desk Book: A fancy, laminated page, over sized "book" or desk stand, that features higher end local attractions, venues, restaurants, etc. We keep this book updated, adding and removing pages as needed.

Specialty Tri-fold, Quad-fold, and standard Rack Cards with local attractions, venues, and niche interests. We have done BBQ, Indian Food, various neighborhoods, and have 5 or 10 more on the way out. These will fit into standard racks, and are left with hotels, in kiosks, and distributed around town

Antiques & Uniques       Hobby & Crafts      \_\_\_\_\_

We also would you to know that we are a local company, founded and working exclusively in the Pittsburgh market draw for the past 3 decades. Unlike virtually every other company offering these services, we live and work here, we sleep in our own beds at night, we use local printers, so work is never "lost" in transit. Everything we do empowers and stimulates the LOCAL economy. Working with us, not only helps you, and your guests, but benefits the local economy directly. And most importantly, we understand the whole "Burgh Thing" and can work with it.
